WHO WE ARE

In just **five years**, **Think Box Logistics**, operated by **Thejonath Kolla**, has grown into a **trusted leader in transportation and logistics**. Though the company is young, its rapid success is fueled by over **15 years of industry expertise**, strong leadership, and a forward-thinking approach that have laid the foundation for accelerated growth. With a solid presence across **Canada and the USA**, we are proud to announce the opening of a **new terminal in Tijuana-Mexico**. This expansion strengthens our North American network, enhances **cross-border connectivity**, and enables us to serve clients with greater efficiency and scale.

Our growth reflects a continued commitment to **service excellence, safety, and customer satisfaction**. We own and operate one of the **safest cargo fleets** on the road, supported by a dedicated team focused on driver and load protection. Our operations consistently meet and exceed **Canadian and U.S. regulatory standards**, and as a proud **C-TPAT member**, we have reinforced cross-border security by safeguarding supply chains, addressing risks, and implementing robust measures. These past five years stand as a testament to our focus on **safety, innovation, and industry leadership**, ensuring long-term partnerships and reliable solutions for businesses across the continent.

5+

YEARS EXPERIENCE

BUSINESS OVERVIEW

For over five years, we have established ourselves as a trusted leader in logistics and transportation, driven by our commitment to **excellence, safety, and customer satisfaction**. With a strong presence across **Canada and the USA**, we are proud to announce the addition of our **new terminal in Tijuana-Mexico**, strengthening our North American network and enhancing cross-border connectivity.

Our Mission

To deliver **safe, reliable, and on-time logistics solutions** that empower businesses to move forward with confidence, while continuously improving our services through innovation and efficiency.

Our Vision

To be recognized as a **North American leader in logistics**, offering seamless cross-border solutions and setting new standards in **safety, service, and customer care**.

Customer Relationships

We believe in building **long-term partnerships** with our clients by providing **personalized service, transparent communication, and tailored logistics solutions**. Our approach is rooted in trust, accountability, and responsiveness, ensuring that every customer experiences not just a service provider, but a **reliable business partner**.

TRUSTED BY INDUSTRY LEADERS

Our clientele includes a wide network of businesses that rely on us for efficient, timely, and reliable logistics solutions. From manufacturers and distributors to retailers and exporters, we serve clients across industries who trust us to move their goods safely and seamlessly. With every partnership,

we focus on building long-term relationships by delivering consistency, transparency, and value-driven services.

INDUSTRIES WE SERVE

At **Think Box Logistics**, we move more than cargo — **we move industries forward.** Our versatile network and expertise allow us to handle a wide range of goods with precision, safety, and speed.

Our Promise
No matter the industry, our goal is simple: on-time, safe, and seamless logistics solutions that empower businesses to grow.

Auto Parts

Keeping assembly lines running with on-time delivery of critical components.

Electronics / Gaming

Safe, secure, and damage-free transport for sensitive, high-value technology.

Fresh & Frozen Food

Temperature-controlled solutions to keep products fresh from farm to table.

Medical Equipment

Reliable logistics for life-saving devices and supplies, delivered with care.

Chemicals

Specialized handling for hazardous and non-hazardous materials, ensuring compliance & safety.

General Cargo

Flexible solutions to move everyday goods across borders with ease.

Lumper Services

Efficient loading and unloading to keep supply chains moving without delays.

Construction Materials

Strong support for projects with timely delivery of essential materials.

COMMITMENT TO STANDARDS

Our certifications reflect our commitment to quality, safety, and compliance in every aspect of logistics and transportation.

They serve as a mark of trust, ensuring our clients that we adhere to industry standards while delivering reliable and efficient services.

INNOVATING THE FUTURE OF LOGISTICS

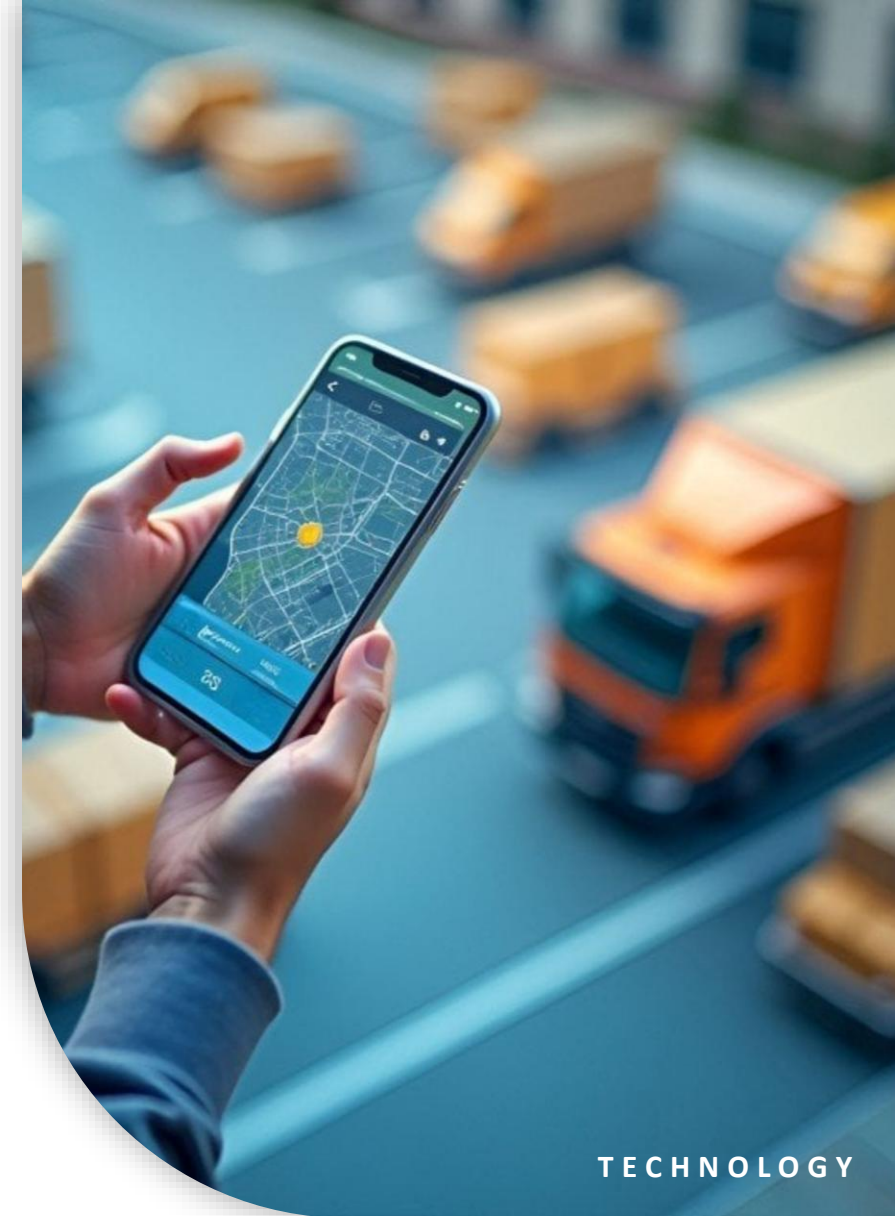

At **Think Box Logistics**, Over 5 years of industry experience we believe that smart technology is the driving force behind modern logistics. Our systems eliminate tedious manual data entry by using **auto-complete fields** to process loads faster and optimize dock operations for LTL fleets.

We empower our clients and teams with **seamless communication and driver activity tools**. From pickup and delivery scheduling to real-time workflow tracking, our technology ensures complete visibility and smooth coordination across the transportation process. With **tracking solutions**, we provide accurate, relevant, and timely updates in a cost-effective way.

For temperature-sensitive shipments, our **Refrigeration Platform** offers remote control and real-time monitoring of refrigerated loads. Through smart devices, customers can monitor goods in transit, ensuring safety and quality every step of the way.

Our compliance-driven technology also provides **real-time visibility into driver status**, ensuring adherence to the ELD mandate. With a **single integrated platform** for Hours of Service logging, GPS tracking, dispatch, and maintenance, we keep operations simple yet powerful. Built-in Wi-Fi hotspots keep devices connected even in areas with low reception, offering peace of mind and uninterrupted service.

At Think Box Logistics, our commitment to technology ensures that every shipment is handled with **efficiency, reliability, and innovation**—giving our clients a smarter, safer, and more transparent logistics experience.

TECHNOLOGY

SAFETY MEASURE

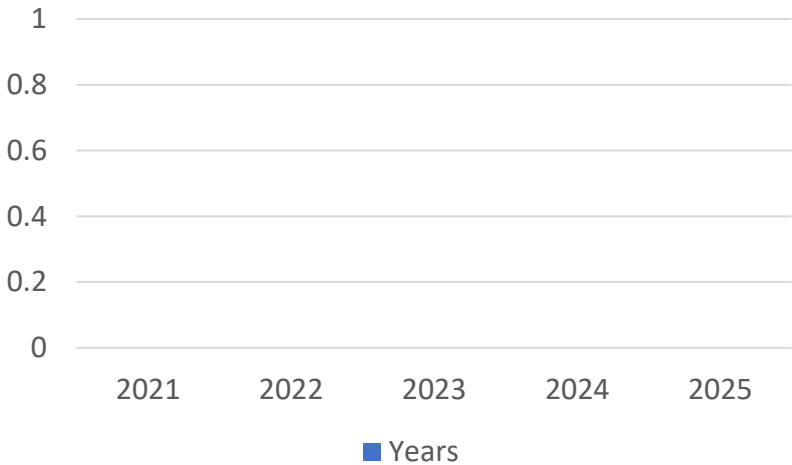

At **Think Box Logistics**, safety and compliance are at the core of our operations. We understand that responsible logistics is not only about timely deliveries but also about ensuring the well-being of our drivers, customers, and the environment.

Our fleet and processes are designed to meet strict **safety and regulatory standards**, including compliance with the **California Air Resources Board (CARB) Emissions Certification**. This certification reflects our commitment to reducing emissions and maintaining environmentally responsible transportation practices. By adhering to CARB requirements, we ensure that our vehicles meet the highest standards for clean and sustainable operations.

Over the last **five years, we have maintained a zero-accident record**, a testament to our strong safety culture and proactive measures. From **regular driver training, compliance monitoring, and equipment inspections to real-time tracking systems and preventive maintenance**, we take every precaution to safeguard both people and cargo.

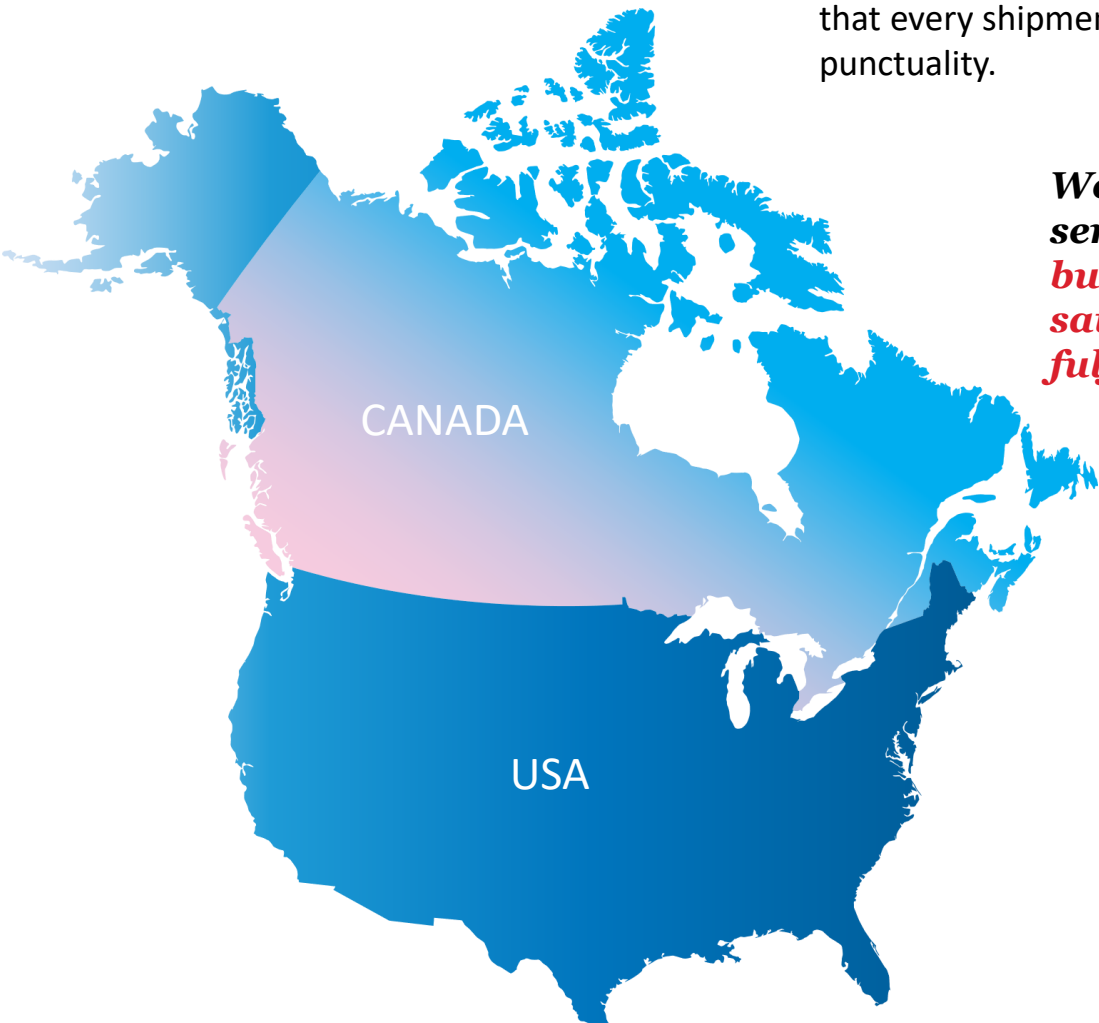

Our technology-enabled platforms provide complete visibility into every stage of transport, minimizing risks and ensuring smooth operations. With these safety measures in place, Think Box Logistics not only guarantees compliance but also builds **trust, accountability, and peace of mind** for every client we serve.

Accident Record (Last 5 Years)

ON TIME SERVICE

At **Think Box Logistics**, we pride ourselves on delivering **on-time services** that keep businesses moving without delays. Our strong presence across Canada and the United States ensures that every shipment is handled with precision, efficiency, and punctuality.

We ensure reliable and on-time service delivery across Canada & USA, building trust, efficiency, and satisfaction with every commitment fulfilled.

TERMINAL

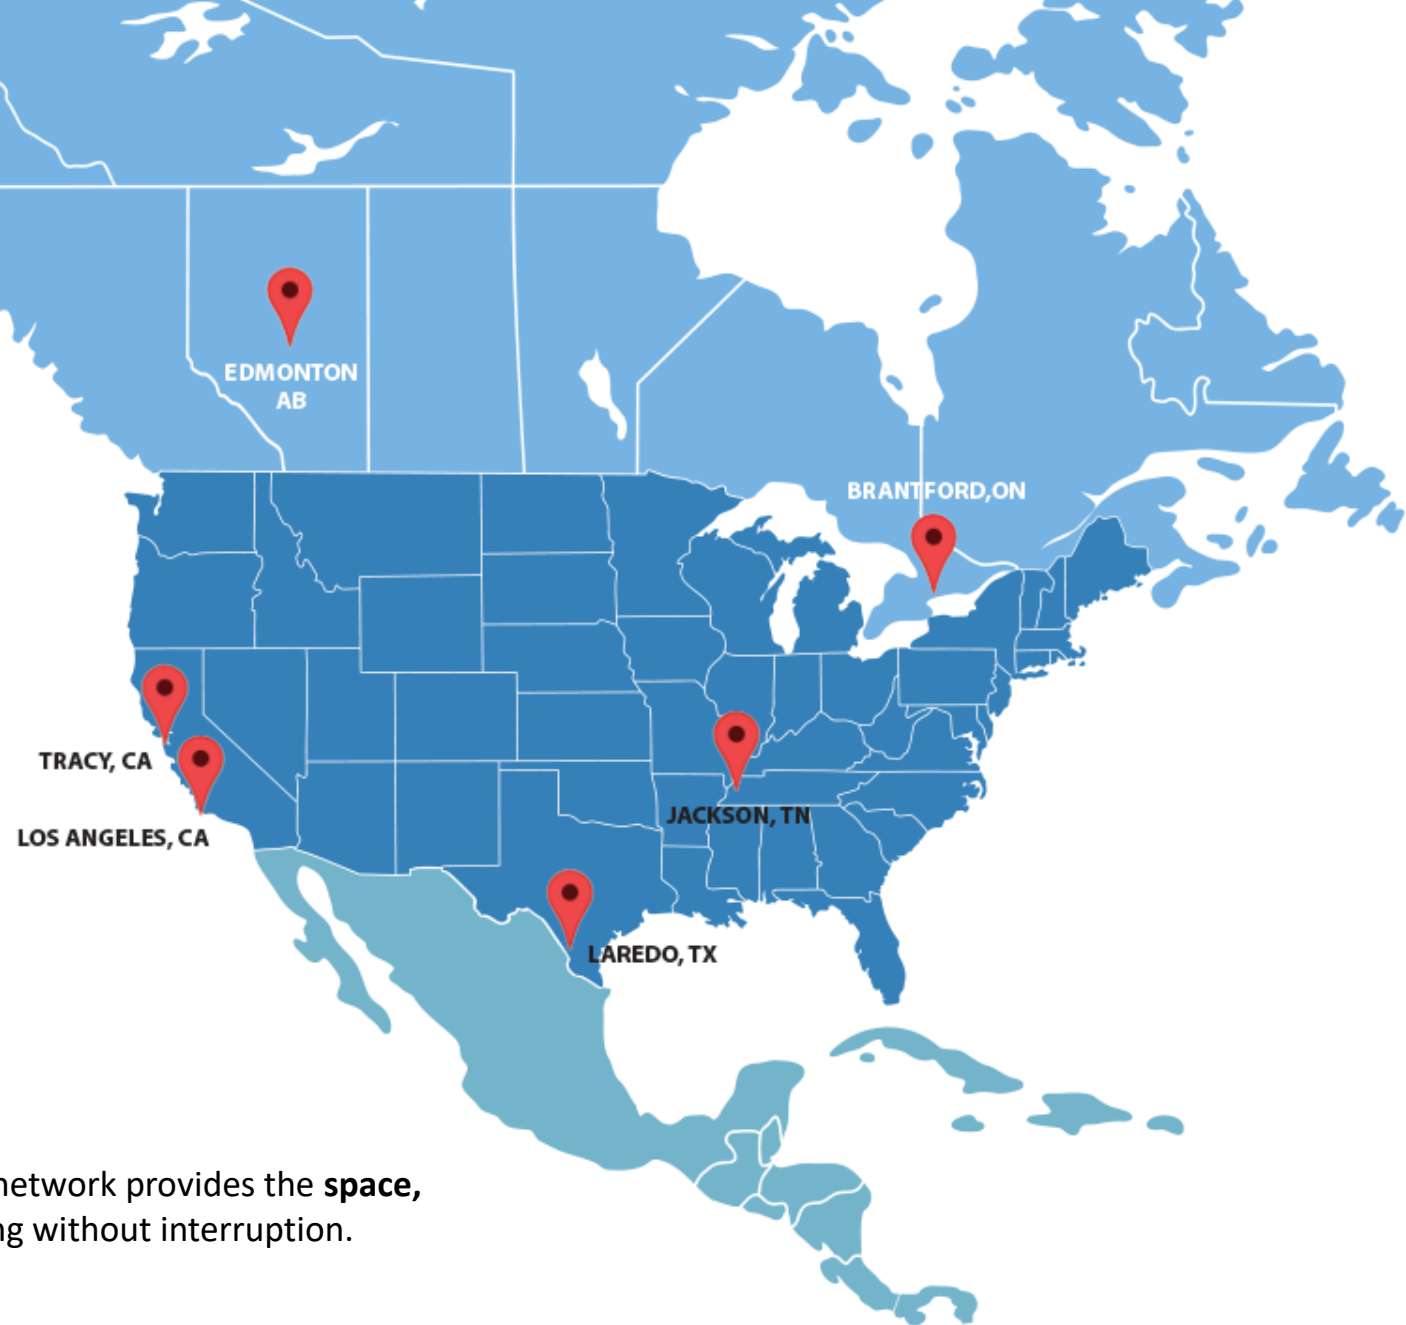

At **Think Box Logistics**, our terminals are the backbone of efficient, reliable, and scalable logistics. With **5 strategically located terminals across Canada and the USA**, we ensure seamless connectivity and faster turnaround times for our clients.

Key Features

- ✓ 6 Terminals Across North America
- ✓ 15,000 – 20,000 sq. ft. Facilities
- ✓ Cross-Docking Capabilities
- ✓ Flexible Storage Solutions
- ✓ Streamlined Operations

Our Advantage

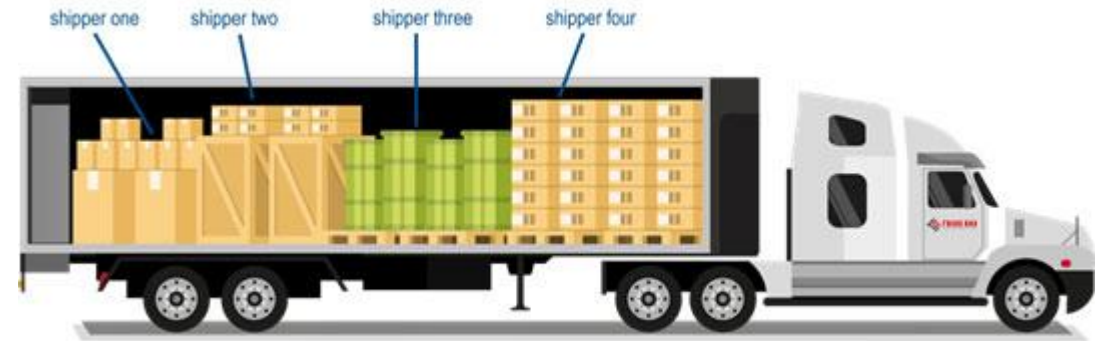

Whether it's cross-docking, storage, or distribution, our terminal network provides the **space, efficiency, and reliability** needed to keep your supply chain moving without interruption.

LOADING CAPABILITIES

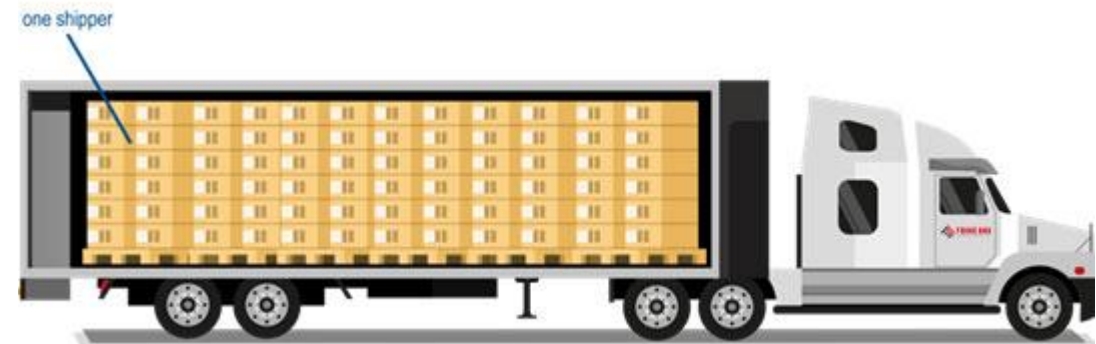

LTL Shipment (Less-than-Truckload)

is the ideal solution for businesses looking to ship smaller freight efficiently and cost-effectively. By combining multiple shipments in a single truck, we help you save on transportation costs while maintaining speed and reliability. Our **LTL services** are designed to ensure secure handling, accurate tracking, and timely delivery across Canada and the USA. Whether it's a few pallets or partial loads, **we optimize every mile**—providing flexibility, transparency, and dependable service for all your logistics needs.

TL Shipment (Truckload)

provides dedicated transportation solutions for businesses that require full-truck capacity for their freight. Ideal for large shipments, high-volume goods, or time-sensitive deliveries, our **Truckload service** ensures your cargo travels directly from origin to destination without transfers or delays. With a modern fleet, experienced drivers, and real-time tracking, we guarantee **secure, efficient, and on-time delivery** across Canada and the USA. At **TL Shipment**, we focus on reliability, safety, and optimizing every route to deliver maximum value for your business.

WAREHOUSES AND STORAGE CAPACITY

Warehousing & Storage Solutions Across Canada

Our state-of-the-art **30,000 sq. ft. warehouse facilities** across Canada are designed to handle diverse storage and distribution needs with the highest standards of safety and efficiency. Each location is a **secured facility approved by CTPAT**, ensuring compliance, reliability, and peace of mind for our clients.

Built to **food-grade standards**, our warehouses are ideal for storing perishables, packaged food, and temperature-sensitive products. We offer **both long-term and short-term storage options**, including **cross-docking, inventory management, and order fulfillment services**.

With advanced security systems, 24/7 monitoring, and easy access to major highways and transport hubs, our warehouses are strategically positioned to keep your supply chain moving smoothly across Canada.

ENVIRONMENTAL

Energy Efficiency

Our facilities are designed with energy-efficient lighting, equipment, and renewable energy sources, ensuring responsible use of resources.

Carbon Footprint Reduction

By optimizing routes, reducing idle time, and investing in energy-efficient technologies, we are committed to lowering our overall carbon footprint year after year.

Sustainable Operations

We prioritize eco-friendly packaging materials, recycling initiatives, and waste reduction programs across all terminals and offices.

Adoption of EV Fleet

We are transitioning to **electric vehicles (EVs)** within our fleet to significantly reduce carbon emissions, noise pollution, and fuel dependency. This shift not only supports a cleaner environment but also ensures long-term efficiency in logistics.

Cross-Border Green Commitment

From Canada to the USA and now Mexico, our environmental policies are aligned with international sustainability standards, reinforcing our promise to protect the planet.

Partnership for Sustainability

We collaborate with clients and partners to design eco-conscious supply chain solutions, ensuring every shipment contributes to a greener tomorrow.

At the heart of our operations lies a strong commitment to **sustainability and environmental responsibility**. We recognize the importance of reducing our ecological footprint and actively integrate green practices into every aspect of our business.
